

2022 Food Allergen Guide

Water World makes reasonable efforts to identify ingredients that may cause allergic reactions for those individuals with food allergies. Managers of each location have gluten-friendly options that are made with no gluten-containing ingredients. However, these are not gluten-free kitchens. We will make our best efforts to accommodate all guests, but cannot guarantee 100% allergen-free food. We instruct our food production staff on the severity of food allergies, but because of the number of meals served and the number of items used each day, along with food product changes from our food suppliers, we cannot guarantee that every allergen in the food served will be identified and labeled. Manufacturers of the commercial foods we use may change the formulation at any time, without notice.

Guests concerned with food allergies must be aware of this risk. Water World is not responsible for adverse reactions to food consumed, or items one may come in contact with while eating at any Water World facility or catered event. Guests with life-threatening food allergies should consider packing their own lunch and should carry their own epi-pen.
